Why SoS?
Department Briefs
Academic Highlights
Highlighting the people, platforms, partnerships and research that make up the School of Science. Targeting potential undergraduates and their parents, graduate students, and alumni, with a focus on outcomes.

Testimonials
1 Department websites are large enough to have their own sitemap, so subpages and elements are not listed here.
2 Link out to centers that have their own web presence. Centers without a web presence may have a home on another page within SoS. School level centers may display as a content type view.
3 Journeys may display as a content type view here and link to its own page. Or it could just be a simple link.
